

## Testimonial for Innovationz Electrical

We were referred to Innovationz Electrical to assist us when we were building our new bar, Smash Palace, and our restaurant, Brick Farm. We were delighted with Lee and his team and they produced what we needed on time and within budget. Lee also was very quick to let us know how we could save money, which is unusual in Christchurch these days.

We have some flats which needed rewiring and Lee rewired them again on time and within budget.

I would not use another electrician having finally found a good one!
