Re: New Power connection

Dear Lee and Shan,

I just wanted to write and thank you for all the work that you and your team carried out on our new Power connection. I have never had to go through a "new connection" process so I thank you Lee for taking the extra time to explain what I needed to do and how to do it. I am very appreciative of how well planned the entire operation was, Given that we had to run our main branch without power for 36 hours you had organised a generator and made it seamless. I felt very at ease having worked with you before ,any issues that popped up you took care of straight away.

My experience with trade's people since the earthquake has been that they are all too busy to take the time to ensure the job is done right. You always answer your phone and get straight back to me with an answer good or bad. The way in which your team carried out the work is completely professional. I know we have used your services for a number of years now but I just wanted to express how happy we have been with your Amazing service and I'm sure it will continue.

I look forward to working with you in the future

Regards

Stuart Gerring

General Manager
